

GIOVANNI BOTTESINI

Complete Method

for

Double Bass

Part I

Transposed One Semitone Up

Preface

Giovanni Bottesini (1821–1889) was an Italian composer, conductor, and music teacher. He was arguably also the most eminent double-bass player of his time, and his virtuosity on the instrument had earned him the title “the Paganini of the Double Bass.” Bottesini toured the world extensively, and among his many accomplishments, was chosen by Verdi to conduct the world premiere of *Aida* in 1871.

Bottesini’s instructional book *Complete Method for Double Bass*, in its various editions, has become a staple of the double-bass curriculum. Bottesini championed the three-string double bass — an earlier version of the instrument, missing today’s E string, which was standard at the time in many parts of the world. Consequently, the lowest note in his original *Method* is low A (except for a few exercises, originally meant for solfège). This version of the book is transposed one semitone up from the original, for practicing purposes.

This digital edition of Bottesini’s *Method* is based on the 1869 French edition issued by Léon Escudier, as found on the International Music Score Library Project website (imslp.org). It contains only the exercises (in a slightly different order), without the original text and illustrations, and does not include the second part of the book, titled “the double bass considered as a solo instrument.” Due to the advances in double-bass technique since Bottesini’s time, and given today’s near-universality of four-string instruments, the original fingering, position, and bowing markings were omitted.

The latest version of this edition and additional material (the entire book transposed to all other keys, audio files, etc.) are available at yuvalnov.org/bottesini. To report mistakes in this document or to suggest improvements, please write to bottesini.method@gmail.com.
